

The Company

*A Parable For
Our Time*

“All I can say is, WOW! A great story and exceptionally well written. A post-modern story of corporate intrigue, apocalyptic tragedy and personal triumph. An allegorical account of Biblical truth and hope reminiscent of C.S. Lewis and J.R.R. Tolkien that will challenge followers of Jesus Christ to a deeper walk with Him. *The Company* will be bigger than *The Shack*.” — James Burkhardt, Founder and Host of SnT Radio.com

THE COMPANY

A Parable For Our Time

A meteor strike plunges the world into darkness. A stranger restores light, supplied by the “Company,” to the darkened Brigos Glen, and inspires villagers to spread the light to others. Will the villagers remain faithful to the plan to spread the light to others? In an ordeal fraught with failure, revelations, and judgment, engineer Sam Mitchell discovers the true identity behind the Company and learns the fate that may befall Brigos Glen . . . that is, unless he can stop it.

In a parable for our time, this modern allegory answers the ancient question:

Who is the Trinity?
